MotorWise Signs Distribution Agreement with John Crane/CDI Oil Field Services for the Country of Romania

(**San Antonio, TX.**) MotorWise, Inc. announced that it has signed a Distribution Agreement with CDI Oil Field Services, an affiliate of John Crane Production Solutions of Houston, Texas, to market and promote the MotorWise technology in Romania.

MotorWise is a controller used to manage and optimize the power delivered to AC electric motors. MotorWise units identify partial and intermittent loading conditions and reduce the motor's voltage to an optimal level. This eliminates waste in the form of heat, noise, and vibration while maintaining proper operation.

David J. Cibrian, President of MotorWise, stated that the agreement with CDI Oil Field Services would allow MotorWise to further expand its international marketing and sales efforts.

"CDI/John Crane has the experience and contacts to assist in presenting MotorWise to the Romanian oil producers. We look forward to our relationship with CDI Oil Field Services," Cibrian said.

-more-

Vasile Mogos, General Manager for CDI Oilfield Services, based in Romania, stated that the MotorWise technology would compliment his company's array of energy solution applications.

"MotorWise is a unique energy savings technology, one we believe is in great demand throughout the oil fields of Romania. We look forward to representing this exciting product," Mogos stated.

Along with this Distributor Agreement with John Crane/CDI Oil Field Services for the country of Romania, MotorWise also has established distributor and sales representation relationships throughout the United States, Latin America, and Australia/New Zealand.

MotorWise, Inc. is a power electronics industrial energy conservation company, and a TechnoWise Group company.
